

FREE OVARIAN CANCER SCREENING

Since early stage ovarian cancer is curable, effort is being made to detect this disease before it produces symptoms. The **UK Ovarian Cancer Screening Program** offers **free** screening to women living in **Kenton County** in Maysville at the Mason County Health Department located at 120 West 3rd Street in Maysville. This program is open to asymptomatic women who are at least 50 years of age *or* women over 25 years of age who can document that a close family member had ovarian cancer. To schedule an appointment, obtain information or evaluation, call 1-800-766-8279. Screening is

free and utilizes state-of-the-art GE ultrasound technology.

Women who are experiencing pelvic symptoms should contact their physician.
